[FDC 1/2679](#) (KFDC A0005/11) FDC...SPECIAL NOTICE SPECIAL FEDERAL AVIATION REGULATION NO. 112 – PROHIBITION AGAINST CERTAIN FLIGHTS WITHIN THE TRIPOLI (HLLL) FLIGHT INFORMATION REGION (FIR).

Applicability: National Aviation Authorities and aircraft operators.

Description: Taking into consideration the recent escalation of violence and the attacks on Tripoli airport, in which infrastructure was damaged and made unserviceable, a series of notices to airmen (NOTAMs) affecting the TRIPOLI (HLLL) Flight Information Region (FIR) have been issued.

The Agency draws the aviation community's attention to information that indicates the existence of serious risks to the safety of international civil flights and the consequent airspace restrictions implemented. Aircraft operators flight planning in this region should exercise caution.

Recommendation(s): Considering current safety risks in the TRIPOLI (HLLL) FIR the European Aviation Safety Agency (EASA) and EUROCONTROL Network Manager strongly recommend airspace users to monitor all relevant information including NOTAMs.

National Aviation Authorities should ensure that all aircraft operators are aware of this information.

EASA and the Network Manager will continue monitoring the situation and update this information as necessary.

Contact(s): For further information contact the Safety Information Section, Executive Directorate, EASA. E-mail: ADs@easa.europa.eu.
