

Safety Information Bulletin

SIB No.: 2014-24

Issued: 01 August 2014
[Correction: 29 October 2014]

Subject: **Airspace and Airport Closures and Restrictions Concerning Iraq**

Reason: This SIB is republished to correct the hyperlink to Federal Aviation Administration (FAA) publications.

Ref. Publications: IRAQI CIVIL AVIATION AUTHORITY [NOTAM LIST](#).

FAA NOTAM #: ZZZ-4/8154 issued on 31 July 2014, refer also to FDC 3/5401 ZZZ - SPECIAL FEDERAL AVIATION REGULATION (SFAR) NO. 77 - PROHIBITION AGAINST CERTAIN FLIGHTS WITHIN THE TERRITORY AND AIRSPACE OF IRAQ.

FAA Prohibitions, Restrictions and Notices are published at https://www.faa.gov/air_traffic/publications/us_restrictions/.

Applicability: National Aviation Authorities (NAAs) and aircraft operators.

Description: Taking into consideration the armed conflict in Iraq a potentially hazardous situation may exist and thus a series of notices to airmen (NOTAMs) affecting the territory and airspace of Iraq have been issued.

The Agency draws the aviation community's attention to information that indicates the existence of risks to the safety of international civil flights and the consequent airspace restrictions implemented. Aircraft operators flight planning in this region should exercise caution.

Recommendation(s): Considering safety risks in the territory and airspace of Iraq the European Aviation Safety Agency (EASA) and EUROCONTROL Network Manager strongly recommend airspace users to monitor all relevant information including NOTAMs.

NAAs should ensure that all aircraft operators are aware of this information.

NAAs should ensure that aircraft operators conduct safety assessments, as appropriate.

This is information only. Recommendations are not mandatory.

EASA and the EUROCONTROL Network Manager will continue monitoring the situation and update this information as necessary.
