

Airworthiness Directive Cancellation Notice

AD No.: 2006-0197-CN

Issued: 30 October 2019

Note: This Airworthiness Directive (AD) Cancellation Notice (CN) is issued by EASA, acting in accordance with Regulation (EU) 2018/1139 on behalf of the European Union, its Member States and of the European third countries that participate in the activities of EASA under Article 129 of that Regulation.

Applicability:

Dornier 328-100 aeroplanes, all manufacturer serial numbers (MSN), and
Dornier 328-300 aeroplanes, all MSN.

Definitions:

For the purpose of this AD, the following definitions apply: None

Reason:

The airworthiness limitations for affected Dornier 328-100 and 328-300 aeroplanes, which are approved by EASA, are defined and published in the applicable Airworthiness Limitations Sections (ALS). These instructions have been identified as mandatory for continued airworthiness.

Failure to accomplish these instructions could result in an unsafe condition.

EASA previously issued AD 2006-0197, requiring certain actions which are now included in the applicable ALS.

Since that AD was issued, 328 Support Services revised the applicable ALS, introducing new and more restrictive tasks. Consequently, EASA issued AD 2019-0270 and AD 2019-0271, each of which takes over the requirements from EASA AD 2006-0197 for model 328-100 and model 328-300 aeroplanes, respectively.

For the reasons described above EASA AD 2006-0197 is cancelled.

Required Action(s) and Compliance Time(s):

None.

Ref. Publications:

None.
