

## COMMENT RESPONSE DOCUMENT

EASA AD No.: 2024-0205

[Published on 22 October 2024 and officially closed for comments on 19 November 2024]

**Commenter 1: Japan Civil Aviation Bureau – Kazuki Takeda – 13/11/2024**

### **Comment # 1**

I have a query regarding Credit:(8) line 2 description as below.  
Is it acceptable to use any revision of AH SB EC225-62-32-0001?  
The AD does not specify the revision and issue date of SB.

### **EASA response:**

**Comment #1 noted. The execution of the Alert Service Bulletin (ASB) EC225-62-32-0001 is mentioned there only in Credit paragraph, because it's performance is mandated by the other EASA AD: 2024-0125R1 (where our standard statement "The use of later approved revisions of the above-mentioned document is acceptable for compliance with the requirements of this AD." has been used).**

**By that, operators who just performed inspection iaw AD 2024-0125R1 / ASB EC225-62-32-0001, are compliant with the initial inspection requirement of the AD 2024-0205.**

**No changes have been made in the final AD in response to this comment.**
