Comment # 1

According to the EASA AD 2025-0275, it says;

- This AD is considered to be an interim action and further AD action may follow.
 - Based on the required actions and the compliance time, EASA have decided to issue a Final AD with Request for Comments, postponing the public consultation process until after publication.
- A. Please let us know when the "Final AD" will be published. It would be very helpful if EASA could tell us not only the specific date, but also the timing (ex. when "something" has changed or been decided since the current time. Additionally, please share with us what "something" is).
- B. Please let us know what updates will be made in the "Final AD".
- C. The compliance time of " within 7 days after the effective date" is a very short period and tough condition. If possible, ANA would really appreciate it if EASA considers to change the compliance time to be such a "within 30 days after the effective date" when the "Final AD" will be published.

EASA response:

Comment noted.

- A. This AD is used as final AD based on the defined compliance time. It might be, that in the future, based on further investigations, the AD will be updated. The post publication consultation is offered in this case.**
- B. See above.**
- C. Not agreed. Please find under [this link](#) the FAQ regarding compliance time extensions.**

No change has been made to the final AD in response to this comment.
