EASA PAD No. 19-215

[Published on 18 December 2019 and officially closed for comments on 15 January 2020]

Commenter 1: Lufthansa Technik AG – Marco Mogk – 07 January 2020

Comment # 1

By superseding EASA AD 2019-0091 the requirement to revise the AMP in accordance with ALS Part 2 Revision 03 and Variation 3.1 will be postponed from May 2020 ("AMP Revision: (3) Within 12 months after the effective date of this AD ..." (10 May 2019)) to February 2021 (expected effective date of new AD February 2020).

I assume that this postponement is not intended by EASA.

EASA response:

Comment noted. The issue has become obsolete as the AD is published to not supersede EASA AD 2019-0091. However, this aspect will be taken into account for the future issuance of superseding ALS type ADs.
