

COMMENT RESPONSE DOCUMENT

EASA PAD No. 20-045

[Published on 27 February 2020 and officially closed for comments on 26 March 2020]

Commenter 1: Delta Air Lines – Dallas Elzey – 12/03/2020

Comment # 1

In paragraph (4), the following language is ambiguous: “From the effective date of this AD, IT IS ALLOWED to modify the aeroplane IN ACCORDANCE WITH the instructions of...”. Is the modification mandatory or is it optional? Delta recommends that a header with wording such as OPTIONAL MODIFICATION be added before paragraph 4 or re-phrase the paragraph as so:

For Group 2 aeroplanes: From the effective date of this AD, it is allowed to modify the aeroplane in accordance with the instructions of OPTIONAL Airbus SB A320-53-1211 or SB A320-53-1219 provided, after that modification, the actions as required by this AD for Group 1 aeroplanes, as applicable, are accomplished on that aeroplane.

EASA response:

Comment noted. Following further review, it has been agreed to prohibit further installations of structural provision for cabin swift broadband antenna in accordance with the instructions of Airbus SB A320-53-1211 or SB A320-53-1219. Final AD has been amended.
