

## COMMENT RESPONSE DOCUMENT

EASA PAD No. 21-095

**[Published on 06 July 2021 and officially closed for comments on 03 August 2021]**

### ***Commenter 1: G-NAV – Stéphane Esnault – 07/07/2021***

I have just read the PAD 21-095. I think there are 2 corrections to be made.

The reference of the technical note is incomplete. The aircraft type is missing, always associated with the Schleicher TN number. There are several TN 29 (example attached) in the Schleicher documentation.

Proposal to change Schleicher Technical Note (TN) No. 29 to Schleicher ASW 15 Technical Note (TN) No. 29.

The issue date of the TN is 28/06/2021 on the ASW 15 TN publication page and not 01/06/2021 in the PAD.

***EASA response: EASA agrees.***

***The final AD wording was updated accordingly.***
