Comment # 1

The headings for Table 1 read:

A: (flight cycles (FC) or flight hours (FH), whichever occurs first)

B: (calendar time, FC or FH, whichever occurs first)

However there are no calendar times given in "B". I suggest that the heading for "B" should be the same as "A" (flight cycles (FC) or flight hours (FH), whichever occurs first) to avoid the confusing implication that there are calendar limits.

EASA response:

Comment agreed - Final AD has been updated accordingly
