### ***Commenter 1: China Southern Airlines – Wu Luo – 18/05/2022***

#### ***Comment # 1***

As an operator, we request the AD to list each specific P/N of oxygen container which was produced by COLLINS and is affected by the AD now. The use of wild card/variable number in P/N makes it impractical for introducing P/N restriction in the maintenance IT system.

#### ***EASA response:***

***Comment not agreed. It is not practicable to list the part numbers in the AD due to the numerous part numbers involved. No changes have been made to the Final AD following this comment.***
