

EASA Withdrawal Statement for Proposed AD (PAD) 24-039

EASA has withdrawn the PAD 24-039 for the following reasons:

- PAD 24-039 proposed to replace Emergency Location Transmitter (ELT) brackets having Part Number (P/N) A0861 with an ELT bracket with crash protection having P/N A0861-1-CP.
- Since PAD 24-039 was issued, Airbus conducted further analysis which demonstrated that the current installation shows no unsafe condition and prevents any hazardous effect on the aeroplane structure or essential systems caused by heat/fire.

Conclusion:

- Because of the facts stated above, PAD 24-039 is hereby withdrawn.
