Comment # 1

Airbus has released revision 8 to the A330 ALS Part 2. This revision incorporates variations 7.1, 7.2, 7.3, 7.4, 7.4 issue 2 and 7.5. The incorporation of Rev. 08 will reduce the burden on operators by mandating the latest revision available. Please note that operators were not notified of the issuance of Var. 7.5 until 11-Dec-2025 which is after the publication of this PAD.

Commenter request: Modify PAD to add ALS Part 2 Revision 08.

EASA response:

Comment agreed. Final AD has been updated accordingly, to refer to ALS Part 2 Revision 08 Issue 02.
