AEROSPATIALE SN 601 "CORVETTE"

Fuel system

The present Airworthiness Directive applies only to AEROSPATIALE SN 601 all serial numbers which have the Fuel Heating System embodied according to AEROSPATIALE Modification 1390 - SB 73-1.

According to the last "CORVETTE" fleet operating results and the interest to improve the fuel icing protection at the level of the low pressure filter, the application of the Modification 1424 - SB 73-3 (replacement of the fuel heater thermostatic element) is made mandatory.

Apply the modification at the latest either within 100 flights or at the next scheduled inspection, whichever occurs first, after the effective date of this Airworthiness Directive.
