

# AIRWORTHINESS DIRECTIVE

released by DIRECTION GENERALE DE L'AVIATION CIVILE

*Inspections and/or modifications described below are mandatory. No person may operate a product to which this Airworthiness Directive applies except in accordance with the requirements of this Airworthiness Directive*

Translation of 'Consigne de Navigabilité'

Réf.: 91-048-013(B) R1

In case of any difficulty, reference should be made to the French original issue.

## AEROSPATIALE SN 601 CORVETTE airplanes

Nose tire maximum operating ground speed

Further to the nosewheel tire tests conducted by GOODYEAR at the request of AEROSPATIALE, it is proved that the nose tire 17,5 x 6,25-6-8 PR P/N 175K88-3 ground operating speed should not exceed 145 knots.

Consequently, the following measures are made mandatory at the effective date of this Airworthiness Directive :

- a) Insert a copy of this Airworthiness Directive in the Section 1 "LIMITATIONS" page 11 of the Airplane Flight Manual.
- b) When using the Airplane Flight Manual, Section 1 "LIMITATIONS" page 11, read : "Maximum tire ground speed : 145 Kt (instead of 165 kt and 156 kt).

The entry into service of the GOODYEAR 17.5 x 6.25-6-8 PR nose tire P/N 175 K 88-4 (AEROSPATIALE modification N° 1428) restores the original ground speeds and cancels the requirements made mandatory by § a) and b) here above.
