

EASA Decision not to adopt Russian Federation AD 2020-FATA-01020A-13

EASA considerations, leading to the decision not to adopt Federal Air Transport Agency (FATA) AD 2020-FATA-01020A-13

The Russian Federation's FATA issued AD 2020-FATA-01020A-13 dated 30 September 2020, applicable to aeroplanes having manufacturer serial numbers from 95007 through 95177 (inclusive). This AD supersedes FATA AD 2019-322-01 dated 06 February 2019, previously adopted by EASA.

Following review of additional information provided by Irkut Corporation JSC, it was determined that the issue addressed by the referenced AD would not qualify for AD action with regards to criteria defined in EASA Part 21.

For the reason explained above, EASA have decided not to adopt FATA AD 2020-FATA-01020A-13.

In case you need further information, please contact the Safety Information Section, Certification Directorate, EASA; E-mail ADs@easa.europa.eu.
