**BIJZONDERE LUCHTWAARDIGHEIDSAANWIJZING
(BLA)
NETHERLANDS AIRWORTHINESS DIRECTIVE**

Onder verwijzing naar BLA nr. 68-19-00 en BLA nr. 74-70-00 geeft de directeur Luchtvaartinspectie van de Rijksluchtvaartdienst de volgende Bijzondere Luchtwaardigheidsaanwijzing.

Under authority of the Netherlands Regulations on the State Control of Aviation the Director Aeronautical Inspection of the Civil Aviation Department gives the following Airworthiness Directive.

LANDING GEAR - MLG AXLE - INSPECTION / REPAIR

Description:

Due to in-service vibration, the stainless steel bushes in the brake unit have caused severe damage on a number of axles. As such damage could subsequently cause a failure of the axle, this Airworthiness Directive (BLA) calls for the inspection and, if damage is found, rework or repair of the chromium-plated areas of the axle which, on assembly, are in contact with the brake-unit.

Effectivity:

F.28 Mk.0100 aircraft delivered before December 21, 1989, all serial numbers, equipped with Dowty Rotol Main Landing Gear Type Nos. 201072005, 201072006, 201072009 or 201072010, incorporating sliding member 201072301.

Effective date: December 21, 1989

Compliance: required before January 31, 1990

Accomplishment: In accordance with Dowty Rotol Service Bulletin F100-32-31 dated December 9, 1989.

Remarks:

- In respect to art. 88 par 3 of the Civil Air Navigation Regulations, this Airworthiness Directive (BLA) must be accomplished by or under supervision of an approved company.
- All operators of the affected aircraft have received the ref. Service Bulletin directly from the manufacturer, or may obtain a copy from Dowty Rotol, Cheltenham Rd., Gloucester, England GL2 9QH.
