**BIJZONDERE LUCHTWAARDIGHEIDSAANWIJZING
(BLA)
NETHERLANDS AIRWORTHINESS DIRECTIVE**

Onder verwijzing naar BLA nr. 68-19-00 en BLA nr. 74-70-00 geeft de directeur Luchtvaartinspectie van de Rijksluchtvaartdienst de volgende Bijzondere Luchtwaardigheidsaanwijzing.

Under authority of the Netherlands Regulations on the State Control of Aviation the Director Aeronautical Inspection of the Civil Aviation Department gives the following Airworthiness Directive.

EQUIPMENT/FURNISHINGS - CARGO DOOR MICROSWITCH CAP - INTRODUCTION

Description:

During production, a cap was not installed around the microswitches of the cargo doors of the forward compartment. The designed cap touched the vent flap protection lattices on the cargo doors and could not be installed. The redesigned cap which was required by AD (BLA) 90-087 failed to solve the problem. As a result, air can still flow between the cargo compartment and the passenger compartment. This Airworthiness Directive (BLA) requires the installation of improved caps around the microswitches of the forward, centre and aft cargo doors.

Effectivity:

F.28 Mk.0100 aircraft serial numbers:
11244 to 11256 inclusive, 11259 and 11260

Effective date: February 15, 1991

Compliance: before March 01, 1991

Accomplishment: in accordance with Fokker Service Bulletin F100-25-051 dated January 04, 1991 or a later RLD-approved revision.

Remarks:

- In respect to Art.88 par.3 of the Civil Air Navigation Regulations, this Airworthiness Directive (BLA) must be accomplished by or under supervision of an approved company.
- All operators of the affected aircraft have received the ref. Service Bulletin directly from the manufacturer.
- This AD (BLA) supersedes BLA 90-087 dated August 03, 1990.
