

EASA Safety Information Bulletin

SIB No.: 2008-50
Issued: 23 June 2008

- Subject:** **Aircraft Parts with Fraudulently Produced Documents that include FAA Airworthiness Tags and traceability documents.**
- Ref. Publication:** FAA Unapproved Parts Notification (UPN) No. 2008-200700111 dated 23 May 2008.
- Description:** The Federal Aviation Administration (FAA) has published the referenced UPN (attached as pages 2 through 7 of this bulletin) as a result of an investigation that revealed that aircraft parts have been sold, using fraudulently produced documents that include FAA airworthiness approval tags and traceability documents.
- After reviewing the available information, EASA concurs with and fully supports the FAA recommendations contained in the UPN. This SIB is published to ensure that aircraft owners, operators, manufacturers, maintenance organisations, parts suppliers, and parts distributors in Europe are aware of these recommendations.
- Applicability:** Parts held as spares and identified in the attached FAA UPN; and any aircraft which have the affected parts, as identified in the attached FAA UPN, installed.
The FAA has not determined the full range of aircraft type designs on which these parts are (intended to be) installed.
- Contact:** For further information contact the Airworthiness Directives, Safety Management & Research Section, Certification Directorate, EASA. E-mail: ADs@easa.europa.eu.

UNAPPROVED PARTS NOTIFICATION

Flight Standards Service

FAA
Aviation Safety

No.: 2008-200700111

Date: May 23, 2008

<http://www.faa.gov/aircraft/safety/programs/sups/upn>

AFFECTED PRODUCTS

Various aircraft parts

PURPOSE

The purpose of this notification is to advise all aircraft owners, operators, manufacturers, maintenance organizations, parts suppliers, and parts distributors regarding unapproved parts sold by Concord International Aerospace, Inc., an aircraft parts distributor.

BACKGROUND

Information received during an investigation conducted by the Federal Aviation Administration (FAA) revealed that between January 2002 and November 2007 Concord International Aerospace, Inc. (Concord), a parts distributor located at S-107 Farview Avenue (sometimes represented as Fairview Avenue), Paramus, New Jersey 07652, sold aircraft parts using fraudulently produced documents that included FAA airworthiness approval tags and traceability documents.

Evidence indicated Concord made, or caused to be made, part certifications and FAA airworthiness approval tags that contained false statements regarding the actual condition of aircraft parts. The investigation also revealed Concord falsified numerous FAA Forms 8130-3, Authorized Release Certificate, and traceability documents using the signature of a deceased FAA designated airworthiness representative (DAR) and forged documentation in the name of U.S. air carriers to verify traceability of the parts sold.

Below is a partial list of parts Concord approved for return to service using fraudulently produced documents.

RECOMMENDATIONS

Regulations require that type-certificated products conform to their type design. Aircraft owners, operators, maintenance organizations, parts suppliers, and parts distributors should inspect their aircraft, aircraft records, and/or parts inventories for any parts acquired between January 2002 and November 2007 from Concord. If you find any parts installed on aircraft, you should take appropriate action. If you find any parts in existing inventory, we recommend you quarantine the parts to prevent installation until a determination can be made regarding each part's compliance with the manufacturer's maintenance manuals.

FURTHER INFORMATION

Further information concerning this investigation and guidance regarding the above-referenced parts can be obtained from the FAA Flight Standards District Office (FSDO) given below. In addition to the above recommendations, the FAA would appreciate any information concerning the

discovery of the parts from any source, the means used to identify the source, and the action taken to remove the parts from service.

This notice originated from the FAA Teterboro FSDO, Park 80 West, Saddle Brook, New Jersey 07663, telephone (201) 556-6600, fax (201) 556-6623.
